

Bus stop favourite  
with urban commuters.

# METRO

The METRO line of urban furniture is distinguished by its functional design and adaptability to the ways of life in urban centres. The high quality construction and pleasing seat design are completed with a series of sober lines that endow the bench with a recognisable character. METRO is a modern symbol of timelessness – it is urban furniture to be encountered today in any global centre and, tomorrow, in all the global capitals.

Tuned to the needs  
of the modern urban  
ambience

Easy installation
