

Repose in all
the colours of life.

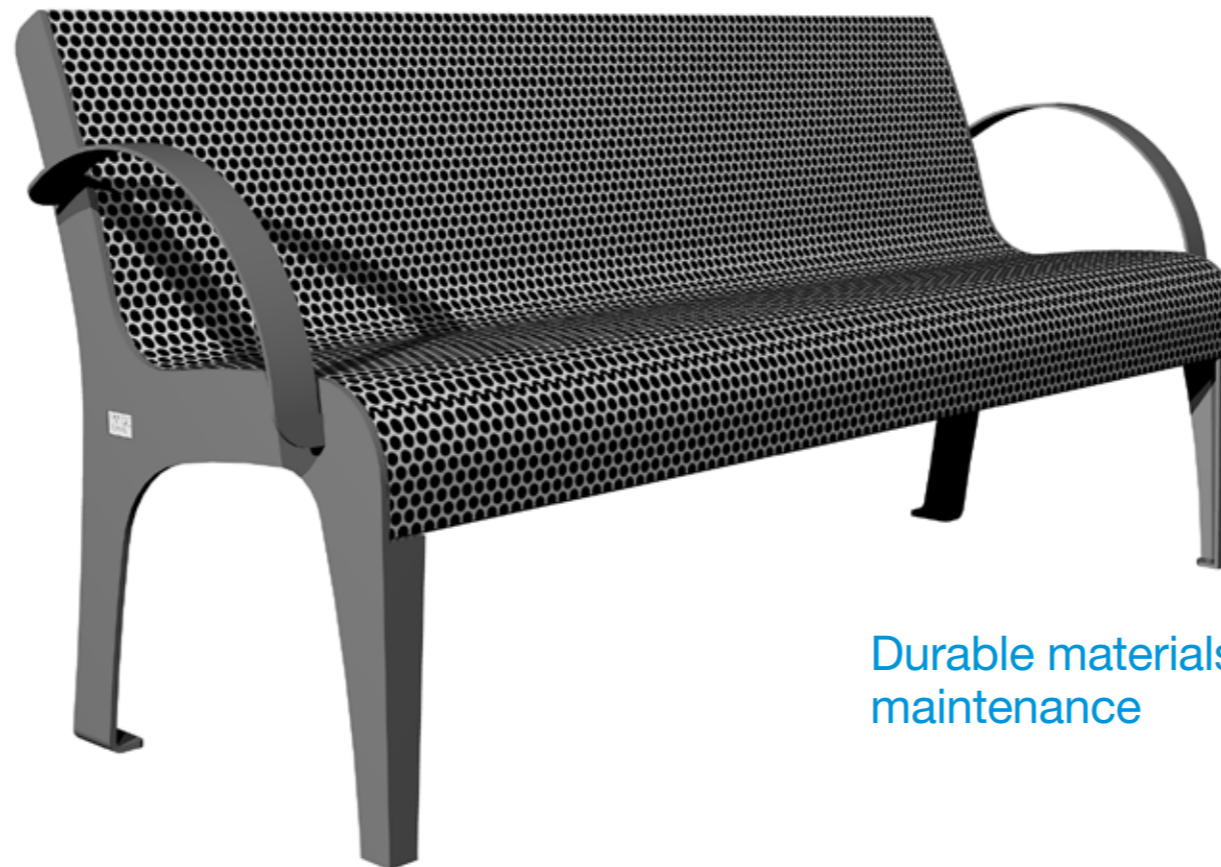

I-WAVE

An I-WAVE bench is a sturdy yet comfortable piece of urban furniture. Its seat made of stainless perforated sheet metal allows easy installation and maintenance. The anatomical shape of the bench is interrupted, in the longitudinal direction, by an armrest to provide the occupant with a bit of privacy even in the rush-hour. With a choice of colours, the bench can be adapted to its context – from neutral hues for formal ambiances to vivid ones for dynamic environments. I-WAVE is a line of urban furniture adapted to city life – distinctive yet adaptable.
